Attention: _____

Gentlemen:

In accordance with your request of 26 September 1963, we are pleased to submit an optional addition to Proposal 1220-2452.

The option provides for circuitry to be developed which may be incorporated into the previously proposed hardware. Such an addition will provide for more independence in target programming and more sophistication in power programming.

It is estimated that the incorporation of this further option will increase our originally quoted price by _____ included _____ in fee. For your convenience, a recap of the original selling price follows:

	<u>Total Cost</u>	<u>Fee</u>	<u>Selling Price</u>
Original Quote	_____		
First Option			
Second Option			
New Proposal Amount			

It is further estimated that the incorporation of this option will increase the total program duration by approximately two (2) weeks over that originally proposed. Two (2) copies of the Proposal Cost Estimate sheet are attached for your use. Also attached are two (2) copies of a classified document entitled, PROPOSAL "1220-2452 Clarification "A".
